

Oregon Ridge Nature Center Council Compost Fundraiser

The ORNC Council is committed to the environment and is sponsoring a new waste reduction program for our Pavilion Rentals. We supply compostable plates and utensils and all compostable material from pavilion rentals is composted by Veteran Compost!

Organic Crab Compost

All-Natural Compost

Raised Bed/Potting Mix

Biochar Compost Blend

You can support our efforts to reduce waste in the park by participating in our Compost Fundraiser. We will be selling 4 different compost products manufactured by Veteran Compost. Yes, some of these products are created from the compostable items that come from our Pavilion Rentals! You'll not only be enriching the soil in your garden, you'll be supporting the work of the Oregon Ridge Nature Center Council!

Organic Crab Compost – 1 cubic foot bags \$10

Our Organic Crab Compost is great for those looking for an organic compost to use on their lawn, garden or farm. Made from Blue Crabs, coffee grounds, produce and mulch fines it is approved for use on organic farms by the Maryland Department of Agriculture. OMRI approval is underway. We don't use any yard waste, manure, biosolids, compostable plastics or mushroom soil in our organic crab compost. It is screened to 1/2" and perfect for lawns, flowers, trees and vegetable gardens.

All-Natural Compost – 1 cubic foot bags \$7

Our All-Natural Compost is made from wood chips and food scraps. It is screened to 1/2" and perfect for lawns, flowers, trees and vegetable gardens. We don't use any yard waste, manure, mushroom soil or biosolids in our all-natural compost production.

Raised Bed/Potting Mix – 1 cubic foot bags \$9

This container mix is great for anyone using raised beds or pots. It is a blend of our all-natural compost, peat moss and coarse vermiculite. This is THE recipe prescribed for Square Foot Gardening, perfect for customers looking for that product.

Biochar Compost Blend – 1 cubic foot bags \$29

A blend of our wood biochar, compost and coir. It contains a minimum of 20% biochar that is charged with liquid fish fertilizer and inoculated with endo and ecto-mycorrhizal fungi. We also include our organic compost and worm castings to provide an additional boost of nutrients and beneficial microorganisms. Coir acts as a great media for fungal growth.

Orders are due no later than Tuesday, June 7th.

Pickup will be at the Lake Pavilion on Saturday, June 11 or Sunday, June 12; 10 a.m. - 12 p.m.
